- Task 1 Introduction to Metasploit
- Task 2 Main Components of Metasploit
- Task 3 Msfrconsole
- Task 4 Working with modules
- Task 5 Summary

# INFOSYS METASPLOIT COURSE

*Please consider this screenshot of completion of the course and assessment.*

I have completed the course, but because I did it just now , so the certificate was not generated. I will mail the certificate as soon as it is generated from the gmail id [swastikgondhi2204@gmail.com](mailto:swastikgondhi2204@gmail.com) .

My final practicals are going on , the datesheet of which is attached below as a proof. I could manage 2 hours before today's practical for this course and the remaining after the practical. This is the reason I could not do it earlier( I completed it still before the deadline though) .

Doon University Dehradun, Uttarakhand-248001

Date:05.05.2025

Practical Examination Schedule (Date: 13.05.2022-17.05.2025)
